

# Welcome to Bar Square

I have searched the corners of the world for top quality wines,  
beers and cocktails

With tempting flavours and believe there is a drink for everyone.

This list has a combination of classics and my personal favourites

Which I have discovered along the way.

All the wines and Champagne brut are available by the glass

And stay fresh with the use of Verre de vin system

This system allows the bottle to be resealed

by reinstating a vacuum into the bottle,

And in the case of sparkling wines reintroducing carbonation.
